BIG EXPLOSION

Of Gas in the New York Store Yesterday Morning About 11 O'clock Causes Small Fire and a Great Amount of Fright.

A gas explosion in the New York Store yesterday morning about 11 o'clock caused a small fire and a great deal of excitement on the part of the clerks and passersby.

Several days ago a gas stove was placed in the store and the connections were found to be faulty. A plumber was called yesterday morning to fix the leak and he started down in the cellar the gas which had collected in the store ignited in some manner and exploded. The force of the explosion was terrific but, although the store was filled with customers and clerks, no one was injured. Merchandise was thrown from the counters and several windows and door glasses shattered by the force of the explosion. The glass in the front doors was blown across the street. One lady fainted from the shock.

Mr. William Sammons, the plumber, was entirely uninjured. It is thought that when he opened the door leading to the cellar the draft blew the fire so as to catch the gas.

The damage to the stock of goods in the store and to the windows, etc., will amount to about \$400 according to an estimate by Mr. Straus, the manager of the store. A small fire occurred immediately following the explosion and the fire department was called out. They extinguished it without delay.

BERGER DENOUNCES ADAMSON LAW

Chicago, October 2.—Victor Berger, the first Socialist member of Congress has come out with a denunciation of the Adamson law as unconstitutional and declares in his Milwaukee Leader that the President has "bounced everybody, including possibly even himself."

The great Socialist leader also declares that "Congress has taken one of the greatest steps in the direction of socialism ever taken—and when it took that step Congress did so without knowing what it was doing."

This particular phase of the situation pleases Mr. Berger, of course, but it is certain that the country at large is not overjoyed at the enactment of hasty socialistic legislation, particularly as it was jummed down their throats, and now lies in a lump, undigested, like a Spring cucumber.

Mr. Berger draws the following deductions from President Wilson's conduct in the Adamson bill affair:

First, that the President and Congress have settled nothing, but only postponed the evil day of settlement.

Second, that the President's action in surrendering the would-be strikers was prompted by political desperation.

Third, that some one will surely be goldbricked—either the trainmen or the country's producers and consumers.

Fourth, that if the increase is granted to the trainmen, the rest of the people will have to pay it.

Mr. Berger adds:

"The worst buncoced element in any case, however, is the great public, including the working classes, who not only will have to pay the difference in wages for the men, but also \$5.00 in profits, dividends and interest for every \$1.00 of increased wages paid by the railroads to the men."

"Moreover, in the event the wrangle between the managers and the brotherhoods leads to a strike after all, business will be paralyzed, there will be a general cessation, and the people will face starvation during the period the managers and brotherhoods are fighting the matter to a finish."

In regard to the legal phases of the Adamson law, Mr. Berger has this to say:

"Congress has passed a law which it has not the ways and means to enforce. You cannot force the railroads to pay a certain wage as long as they are privately owned. You cannot compel the railroads to this any more than you can compel the owner of an American newspaper or any other privately owned enterprise to pay a certain wage."

SPLINTERED PLANKS

With the exception of the tariff, the campaign pledges of the Democratic party contained in the campaign four years ago have at most, without exception, been broken. They promised specifically, regulation of railroads by the enactment of a law that would give the Interstate Commerce Commission power to control the issue of stocks and bonds. Such a bill passed the House and after a great deal of careful consideration it was reported to the Senate by the Committee. It was then that the strong hand of President Wilson was seen and just on the eve of the redemption of this promise made to the American people, he stretched forth his mighty hand and killed the legislation.

They pledged themselves in favor of free tolls for American shipping in the Panama Canal, but under the command of President Wilson, they openly violated this pledge and repealed a law which they had solemnly promised to enforce. Personally, I was opposed to free tolls and favored the repeal of the law, but regardless of anyone's opinion as to the merits of the controversy, the fact stands out boldly and indisputably that President Wilson compelled his party in Congress to violate the solemn platform pledge that he himself had promised the American people to enforce when he was asking for their votes.

They pledged themselves to uphold and to extend the Civil Service, and yet, they have violated the law on every possible occasion and have taken thousands of places out from under the Civil Service and placed them upon the political pie counter.

They condemned the enactment of laws that would provide for additional places, and yet, they have provided for many more offices which they have filled with Democrats, than any other administration in the same length of time has done in the history of the country.

They proclaimed that they were opposed to the filling of office by appointment for partisan reasons and as pay for political service, claiming that appointments should be made on the ground of fitness, and yet, they have filled more offices by incompetent men, as a reward for political service and on partisan grounds alone, than any other administration has ever done.

They promised to place the diplomatic service on a high moral plane, above the clamor and turmoil of polities, and in the face of this promise, they have degraded the service, filled it with "deserving Democrats," where the primary reason for appointment was partisanship alone.

They promised the American people an economical administration of government, but they have appropriated more money and been more extravagant in the management of the Government than any other administration in our history—and this is aside and independent of any and all appropriations made on account of so-called preparedness.

They promised to protect our citizens at home and abroad, and yet, the conduct of the administration in Mexico shows that more American citizens have been killed on Mexican soil by bandits, than were killed in the Spanish-American War.

Without cause and without reason, they sent our army and our navy into Vera Cruz, with the avowed and ostensible purpose of compelling a Mexican butcher to salute the American flag. After the loss of about twenty American lives and the killing of several hundred innocent Mexicans, the expedition withdrew and the salute has not yet been given.

The Administration recognized as the head of the de facto government in Mexico an irresponsible and worthless pretender who has not now and never did have control of Mexico and whose rule has been marked along its entire course by the sacrifice of American rights and American lives.

The Administration sent the entire army into Mexico to capture a bandit and without capturing him they are now withdrawing the troops at the demand of Carranza, who has had neither friendship nor respect for Americans or American rights.

The Baltimore platform pledged the party and Mr. Wilson, its nominee, to the theory of one term in office for a president and Mr. Wilson's renomination and present candidacy stand boldly forth as a violation of a pledge solemnly made to the American people.

If in addition to the violation of those pledges, they had also violated the pledge on the tariff, the country would be better off. They have mostly violated the good pledges and kept the bad ones.

At the breaking out of the European War, the country was already beginning to show the evil effect of the Democratic tariff. Business was closing down everywhere and men were thrown out of employment in all sections of the country. It is only because of the changed conditions in Europe brought about by the war, that the American people have not been suffering severely on account of their tariff enactment. The temporary prosperity that the country is now enjoying has been brought about by the war in Europe. Just before its commencement, the evil effects of President Wilson's democratic administration were beginning to be seen and felt throughout the country. Men everywhere were out of employment, factories were closed down, the market of the farmer was beginning to dwindle and had it not been for the war that changed conditions entirely, our country today would be filled with soup-houses, the farmers' market would be gone, the laborers would be out of employment and the evil effects of President Wilson's democratic policies would be manifest everywhere.

President Wilson has been the most partisan President who ever occupied the White House. Under his leadership, party has been placed above country, and we have had an exhibition of the enactment of laws through secret caucus control rather than through legislative methods contemplated by our forefathers when they adopted the Constitution.—G. W. Norris, U. S. Senator from Nebraska.

ENCOURAGING REPORTS

Wonderful Strides Have Been Made By Sunday-Schools of State.

The last year has been one of remarkable growth in the Sunday-schools of Kentucky. The reports of the President, Mr. Huston, Quin; the General Secretary, Rev. Geo. A. Joplin; the Field Workers, Rev. T. C. Gebauer and Mr. W. J. Vaughan; the Office Secretary, Miss Frances L. Grigsby, together with those of the Departmental Superintendents of the Kentucky Sunday-school Association, which will be made to the State Convention in Somerset, will show that the year has been one that has surpassed all former years. The success attained, however, is only a challenge to greater things in the future.

A MAYSVILLE INQUIRY

Answered by the State of a Maysville Resident.

When first the long series of reports of Maysville people who have been relieved by Doan's Kidney Pills were published in the local press, great enthusiasm and interest were aroused. But Maysville is now inquiring "How are these people keeping today? How has the benefit they received withstood the test of time?" For that, after all, is the essential test of a cure. On this point doubt can no longer exist, for after many years those who have been cured, emphatically declare their cures to be lasting.

Frederick Dresel, 1238 E. Second St., Maysville, says: "I was troubled with inflammation of the bladder and an annoyance from my kidneys. The passages of the kidney secretions were irregular and I had a severe pain across the small of my back, which interfered with my duties. I got Doan's Kidney Pills at Wood & Son's Drug Store and one box gave me prompt relief."

NO TROUBLE SINCE

OVER THREE YEARS LATER, Mr. Dresel said: "I haven't had any kidney trouble since I used Doan's Kidney Pills."

VEILED PROPHET TO HONOR SHAKESPEARE ON 1916 VISIT TO ST. LOUIS

The only pageant of electric floats depicting scenes from Shakespearean plays that the world has ever known will take place in St. Louis the night of Tuesday, October 3, as the crowning feature of a series of notable events there commemorative of the Shakespearean Tercentenary.

Earlier features of the Shakespearean celebration at St. Louis were as follows:

April 26—Shakespearean tercentenary program in connection with the opening of the sixth annual convention of the Drama League of America.

April 27 and 28—Presentation, under the auspices of Washington University and the Washington University Association, of the Washington University Shakespearean Festival, consisting of three plays of the Shakespearean period—The Winter's Tale, The Merchant of Venice, and The Taming of the Shrew.

April 28—Shakespeare statue ceremony at Tower Grove Park, with reading of William Shakespeare's famous Ode to Shakespeare, composed in honor of the occasion by Mrs. Sara Teasdale Flinck.

May 13—Community production of As You Like It, and an epilogue depicting May-Day revels of Shakespeare's day at Forest Park, under the direction of the St. Louis Pageant Drama Association, headed by Margaret Anglin and including John B. Mantell and other famous professionals.

One-Night Celebration Costs \$60,000.

The float pageant October 3, a part of the Veiled Prophet's contribution, at a cost of about \$60,000, to the Shakespearean celebration, will be, it is prophesied, the most spectacular of all the Shakespearean events this year in cities of America and Europe.

As usual the Veiled Prophet's 1916 (thirty-ninth annual) appearance will be the chief feature of the St. Louis Fall Festivities, which this year will include an agricultural pageant at the St. Louis Agricultural Fair, October 2 to 7, showing the evolution of farm machinery and farm practice from the day of the Indian to the present day; and America's first showing, collectively, of 1917 models of automobiles.

The new models of automobiles are to parade through the downtown business district the mornings of Tuesday, October 2, and Thursday, October 5.

Route Six Miles in Length.

Twenty-two floats, the first bearing the mysterious Veiled Prophet himself, the second portraying Shakespearean plays collectively and each of the twenty others depicting a scene from a particular play, will constitute the pageant, which will move through prominent streets over a route six miles in length, terminating at the Coliseum, where the Prophet will crown his queen, one of the prominent young society girls of the city, at his annual ball—the city's principal social event of the year.

BREMEN POPULAR NAME

Galveston, Texas, October 2—That two German merchant submarines named Bremen have fallen into the hands of the Entente Allies and that a third bearing the same name is now en route to the United States is the report brought here by Captain H. Vanschoonbeek, of the Belgian steamer Elizabeth Van Beige, which arrived today from Barry.

Captain Vanschoonbeek declared one of the submarines was captured by the British and the other by the French.

He said he learned this from good authority in France, but he declined to name the port to which the captured ships were taken.

FARAGUT'S FLAGSHIP BURNED

Eastport, Maine, October 2—The famous old United States frigate, Franklin, flagship of Admiral Faragut on his European cruise in 1867, and for the last 30 years receiving ship at the Norfolk (Va.) Navy Yard, was burned on the beach here late today for the metal in her hull. The Franklin was built at the Charlestown Navy Yard in 1818, and when launched was the largest and best equipped ship in the navy. She cost \$1,331,000, and was sold for \$15,750.

Given under my hand, at my office, in the City of Maysville, Mason County, Kentucky, this 30th day of September, 1916.

PARALYSIS EPIDEMIC RAPIDLY IS SUBSIDING—RAISING OF QUARANTINE RECOMMENDED

New York, October 2—The epidemic of infantile paralysis which has prevailed in New York and vicinity since the early part of July has now reached such a low ebb that a discontinuance of travel inspection from the state of New York by the United States Public Health Service has been recommended by Dr. Charles E. Banks, United States Public Health Surgeon in charge of the situation here.

The recommendation was made by Dr. Banks in a telegraph report to Surgeon General Blue at Washington.

Dr. Brooks said that Pennsylvania and Florida have already lifted the quarantine against New York, and that he had been advised that New York would do likewise tomorrow.

The greatest enemy to your teeth is neglect and "putting off" of treatment. Perhaps you have "put off" a trip to the dentist's from last month to this and from last week to this. And now, maybe, you're delaying until next week.

Every day you neglect your teeth means a certain amount of decay and deterioration.

Why delay longer, when such efficient dentist as Crowell is always ready to serve you? To serve with quality of work, with consideration; has built for me a reputation as Maysville's foremost dentist.

Ask those who have had work done here and they will say—

"Crowell's for the best always."

CLOTHES ECONOMY

Look at it this way: A suit purchased here at \$25 will not sag or bag because the sag and bag has been shrunk out of the fabrics, inside and out. It will not lose its style for that has been tailored into it by experts. It will satisfy because of its stability.

\$25 is only a few dollars more than cheap clothes cost. \$25 suit will outwear a cheap suit two to one; it will outlook a cheap suit four or five to one. True economy always looks beyond the purchase price.

KUPPENHEIMER CLOTHES

are spoken of as a greater values. Men who buy them and wear them, come back and duplicate their purchase each season in the season's latest styles.

SUNDAY SCHOOL ENTERTAINMENT LAST NIGHT

The entertainment at the Christian Church last night, given by the Sunday School of that Church for all of the Sunday Schools of the city, was a splendid success. Miss Hadee Meford Sykes, a number of the Redpath Chautauqua Bureau, was the star, she being very ably assisted by Mrs. Russell, pianist, and Miss Henev vocalis, both of Ripley, and Mr. Wallace, violinist, of the Conservatory of Music of Cincinnati.
